## An Individual Major Medical Plan for People Awaiting Medicare Eligibility

### DESCRIPTION OF BENEFITS

The Bridge Plan is a major medical expense insurance plan intended for use by persons awaiting acceptance as a participant in the U.S. Medicare System. Foreign Nationals are eligible to participate in U.S. Medicare five years after becoming a U.S. Resident. Certain U.S. citizens not covered by both parts of Medicare A and B may also apply for coverage under this plan. The Bridge Plan pays medically necessary expenses incurred. The expenses eligible for payment under this plan are subject to the deductible, coinsurance and limitations as outlined in the certificate.

#### The Bridge Plan pays like this...

##### Deductible

A choice of \$1,000, \$1,500 or \$2,500 per cause, per person or all-cause, per person if the optional all-cause deductible is selected.

##### Coinsurance

The plan pays 80% of the eligible expenses that exceed the deductible amount, up to the next \$10,000.

##### Thereafter

After the deductible and coinsurance amounts are satisfied, 100% of eligible expenses are paid on the basis of usual, customary and reasonable charges, up to the plan maximum of \$250,000 up to age 74. (\$100,000 maximum ages 75-79 and \$50,000 maximum ages 80 and up.)

##### Additional Information

1. The deductible and coinsurance are on a per cause, per policy period basis.
2. The maximum benefit, limitations and pre-existing conditions begin from the inception date of the first certificate.
3. The plan may include coverage for Part A, Part B or both.

##### Covered Expenses

**Part A:** These benefits include Hospitalization, Hospice Facilities, Skilled Nursing Facilities, and Home Health Care Services, based on medical necessity.

**Part B:** These benefits include the costs of Physicians and Surgeons on either an in-patient or out-patient basis, supplies, therapy and ambulance services, based on medical necessity.

#### Plan highlights

- **Any Doctor and Any Hospital.**
- Conditionally renewable annually for **up to five years**. In the event of non-renewal, if hospitalized, benefits shall continue for up to thirty days beyond the period of insurance.
- Benefits paid based on **usual, customary and reasonable charges and not on diagnostic related groups**. (DRG is what Medicare uses. A much lower fee schedule.)
- **Spouse Discounts.**
- **Choice of Deductibles**

#### Pre-existing conditions

A pre-existing condition means any condition which originated and which would have caused an ordinarily prudent person to seek medical diagnosis or treatment or was treated or diagnosed prior to the coverage effective date. A pre-existing condition shall not be covered until a period of 24 months, treatment free, has elapsed after inception of the first certificate.

The Bridge Plan, like Medicare, pays a large part of health care expenses, but it does not pay all of them. There are limits as to amounts payable.

# THE BRIDGE PLAN

## An Individual Major Medical Plan for People Awaiting Medicare Eligibility

### THE PROBLEM

Senior age people desire coverage under the Social Security Medicare program. There are some people who, either by residency status or other reasons, may not be currently eligible for Medicare. All permanent residents and citizens of the United States are eligible for Medicare at some point in time. There are three conditions for which The Bridge Plan plan is used as a temporary substitute.

### WHO BUYS AND NEEDS THE BRIDGE PLAN?

#### New United States Residents

Medicare will accept people who have been a permanent resident of the United States for at least five years.

This does not require citizenship or any payment into Social Security prior to eligibility. The only requirement is that they must pay a premium to have both part A and part B.

**Solution** The Bridge Plan is available to persons who have become permanent residents of the United States and who are awaiting Medicare eligibility.

#### United States Residents/Citizens Who Missed Medicare Enrollment

Some people may be eligible for Medicare due to age and qualifications, but have failed to enroll. Enrollment is not automatic. Social Security does not remind people to enroll. If they miss their enrollment period they must wait to enroll at a later date. This may be as much as 18 months later!

**Solution** The Bridge Plan will cover them with benefits similar to Medicare on a temporary basis until the next enrollment opportunity.

#### A Person On Medicare Who Does Not Have Either Part A or Part B

Some people, for various reasons, have only Part A or Part B. They may be able to get the additional part through Medicare, but at a later date.

**Solution** The Bridge Plan may be sold with both Part A and Part B, just Part A, or just Part B.

#### DON'T FORGET!

Like Medicare, The Bridge Plan covers individuals while in the United States only! If they plan to travel, they need the added security of the International Major Medical Plan for the time they will be outside the U.S.A.

#### New Option Available!

The All-Cause Deductible Option may replace the plan's standard Per Cause deductible. This changes the deductible to a single deductible for all claims within the plan's period of coverage.

All permanent residents and citizens of the United States are eligible for Medicare at some point in time!
